

## **STAINLESS STEEL TABLE**

**#736**

### **Parts List**

- 1 – 72" x 24" stainless steel tabletop
- 1 – 18 gauge stainless steel shelf
- 4 – legs with adjustable feet
- 16 – bolts for attaching legs to table
- 16 – lock washers for attaching legs to table
- 20 – flat washers for attaching legs to table and shelf to legs
- 4 – flat washers for attaching shelf to legs
- 4 – allen head screws for attaching shelf to legs
- 1 – allen wrench
- 1 – open end wrench

### **Assembly**

1. Lay the table-top upside down on a protected surface,
2. Attach the four legs to the tabletop by placing a lock washer first and then a flat washer on each of the 16 bolts. Firmly tighten each bolt after each leg has been attached.
3. Stand the table up on its legs.
4. Attach the shelf using the allen wrench, the 4 allen head screws, and 4 flat washers.
  - a. Using 1 flat washer and 1 allen head screw, partially tighten one corner of the shelf to the leg. Allen screws are inserted from the outside of the leg.
  - b. Next, move to the diagonal corner and repeat step a.
  - c. Repeat step a. for the other two corners of the shelf.
  - d. After all corners of the table are in place, firmly tighten each allen head screw.
5. Make appropriate adjustments to the leg levelers to form a sturdy, level work area.
